

I have really enjoyed listening to KLOVE for almost a year now. The music that is played on there is exactly what they claim it to be "Positive & Encouraging". The words to the songs have helped me to see life in a whole new way and have helped me want to try to live my life in a whole new way! People everyday are listening to KLOVE and responding positively to the message that they are hearing. I have heard stories of people that had contemplated suicide and had changed their mind because of the music that they heard on KLOVE. KLOVE is not only effecting adults but children as well. When children listen to KLOVE there is also a very positive effect. It has been great to personally experience children that want to listen to KLOVE and hear songs about God and Jesus. These children hearing the music on KLOVE are growing spiritually and more positive emotionally. They are more loving and caring individuals. If KLOVE were to be replaced by an LPFM broadcaster providing other programming, I believe that the local community would not have the positive and encouraging message that they currently receive from KLOVE. With all of the other secular stations out there already, why can't KLOVE be left to provide people with a positive message through the music? The pastors at KLOVE pray for individuals' needs and try to do whatever they can to help people with their needs. KLOVE is not only a radio station and website, it is a loving, caring community in itself available for those in need! Since KLOVE is listener-supported, that shows how much the community wants to keep their positive and encouraging music available to them 24-7. As a new-supporter of KLOVE, I want to continue to be able to hear and benefit from my positive and encouraging music on KLOVE! Please don't replace KLOVE! Thank you!
